

**Tardiva Hydrangea**  
*Hydrangea paniculata 'Tardiva'*

Height: 10 feet

Spread: 10 feet

Sunlight: ○ ● ●

Hardiness Zone: 4a

**Description:**

A showy late summer-blooming shrub with cone-shaped panicles of mixed sterile and fertile white flowers which persist into winter, blooms well in shade; somewhat coarse in appearance, regular pruning recommended; needs slightly acidic well-drained soil

**Ornamental Features**

Tardiva Hydrangea features bold conical white flowers with pink overtones at the ends of the branches from late summer to late fall. The flowers are excellent for cutting. It has green deciduous foliage. The pointy leaves do not develop any appreciable fall color.

**Landscape Attributes**

Tardiva Hydrangea is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its relatively coarse texture can be used to stand it apart from other landscape plants with finer foliage.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It has no significant negative characteristics.

Tardiva Hydrangea is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use

### **Planting & Growing**

Tardiva Hydrangea will grow to be about 10 feet tall at maturity, with a spread of 10 feet. It tends to be a little leggy, with a typical clearance of 2 feet from the ground, and is suitable for planting under power lines. It grows at a medium rate, and under ideal conditions can be expected to live for 40 years or more.

This shrub performs well in both full sun and full shade. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. Consider applying a thick mulch around the root zone in winter to protect it in exposed locations or colder microclimates. This is a selected variety of a species not originally from North America.
